PERMIT FEE AND CONCESSION PAYMENT SCHEDULE

The successful Proposer for each park will pay a permit fee of \$75.00. The Concessionaire shall make Concession Fee payments to the Department for the grant received herein, on or before the 10th day of the month (or the first working day for City employees thereafter) following each month of service under this Permit. This payment shall equal the Concession fee plus applicable Leasehold Excise Tax.

For example the concession fees and Leasehold Excise Tax will be paid on June 10th for May sales, July 10th for June sales, August 10th for July sales, September 10th for August sales, and October 10th for September sales.

RFP EVALUATION

Parks Department staff will review the Proposals submitted for the RFP process. Parks invites operators of food trucks, carts and other self-contained food service businesses, though some locations may not be appropriate for all types of vehicles, trailers or carts. Some locations may lack vehicle access, others may lack power, water or amenities, and only fully independent vehicles may operate. The panel will score the Proposals, determine the highest qualified Proposals and will interview the Proposers if interviews are necessary, and make a final recommendation regarding the award to the qualified Proposers offering the best services to park users and return to the Department. Generally, if all Proposers offer sufficient references and experience then the Proposer offering the highest concession fee and most appropriate services for the park will be awarded the permit. The Department reserves the right to refuse any and all proposals. Proposals can not be accepted for the sale of tobacco products, alcoholic beverages and products in glass containers.

SECTION I – INFORMATION REGARDING REQUESTS FOR PROPOSALS - PARK CONCESSIONS AT VARIOUS DEPARTMENT PARK LOCATIONS.

PROPOSAL DUE DATE – THURSDAY, MARCH 31, 2016 BY 4:00 PM

OVERVIEW.

This REQUEST FOR PROPOSAL (RFP) represents a publicly advertised and competitively awarded solicitation by the City of Seattle, Department of Parks and Recreation for Food Trucks, food carts and other Seasonal Concessions Operators for selected parks. Seattle Parks is seeking proposals from operators for specific locations in parks. Some park locations can only accommodate completely self sufficient food truck vending while others accommodate temporary carts or contain existing buildings that support concession activities. The Department is seeking and will select concessionaires that best demonstrate the ability to provide innovative, affordable, safe and reliable services to park patrons while paying reasonable concession fees to the Department. You are encouraged to offer services and/or products that would be complimentary to the existing uses of the park. The Department reserves the right to approve or disapprove any proposed business activity. **Food Trucks:** while a few locations can only accommodate carts due to their limited size or other issues, most Parks locations work well for food trucks and trailers. Peak use of most Parks, and hence peak demand for food is usually on weekends or later in the afternoon and early evenings, so Parks locations work very well for businesses already committed to one or more SDOT street vending locations during the week. Parks welcomes proposals for food trucks and other vendors who only wish to service a specific location only one or two days a week.

All operators of food trucks, food carts or other food service concessions will be required to provide some healthy food options in their menu. For information about what qualifies as "healthy" or "healthier" food items, please refer to the Seattle Parks Healthy Menu Criteria on pages 30.

If you are awarded a Concessions Permit you may <u>NOT</u> sell, transfer or give the concession rights to anyone else. You must operate the concession that is awarded to you.

All proposals become the property of the Department and are subject to Public Disclosure laws.

May be combined with other Parks locations, would work well for vendors committed to SDOT locations during the week. The minimum acceptable concession fee proposal for the season from date of execution through the end of September is \$75.00

^{*}Portion Size - Portion size is not defined for any items, but smaller portion sizes are preferred.

Healthiest – must meet both criteria:

- 3 grams of Total Fat or fewer per serving (Nuts and seeds exempt from restrictions.)
- 30 grams of Carbohydrates or fewer per serving (All candies are considered unhealthy.
 Fruit in any form is permitted, regardless of carbohydrate count).

Healthier – must meet both criteria:

- o 5 grams of Total Fat or fewer per serving (Nuts and seeds exempt from restrictions.)
- 30 grams of Carbohydrates or fewer per serving (All candies are considered unhealthy.
 Fruit in any form is permitted, regardless of carbohydrate count).

Rationale - Snacks*

- Fat: It was determined not to differentiate saturated fat from unsaturated fat. When total fat is considered, saturated fat tends to be low.
- Nuts and seeds: Nuts and seeds are exempt from the fat guidelines, because they are high in monounsaturated fat, which can help lower "bad" LDL cholesterol and maintain "good" HDL cholesterol. Nuts and Seeds have been shown in many studies to reduce the risk of having a heart attack.
- Carbohydrates: The level of carbohydrates was set at 30 grams per serving to include more food items. All candies are considered unhealthy, regardless of carbohydrate content.
- Fruit: Fresh fruit is best, but fruit in any form (canned, fresh, and dried) was not restricted by carbohydrate standards because it provides vitamins, minerals, anti-oxidants and dietary fiber that are beneficial to an overall balanced diet.
- Portion size: Portion size is not defined, because there is variability among products. However, the preference is for smaller-portioned products.

Rationale - Beverages

- Milk in any form provides vitamins and minerals, but the low-fat and non-fat versions are preferred. Flavored milks are permitted.
- Water: Pure water is preferred, but water that is flavored maybe more attractive to someone who doesn't drink plain water. The vitamin-enhanced waters may benefit people with such nutritional needs, although pure water is the healthiest choice.
- Juice: Fruit and vegetable juices should contain 100 percent juice.
- Carbonation and caffeine: Carbonation in moderation does not have a significant effect on nutrition. Avoid caffeine-some low non caffeine drinks may be considered. Carbonated low-calorie beverages may be another option for people who don't like milk or plain water.
- Low-calorie: Beverages containing 50 calories or fewer per 12 oz serving were deemed healthier options.
- **Portion sizes for juice is 6 ounces and for flavored milks is 8 ounces.
 - Healthiest
 - Milk Low fat (1%) or Non-fat
 - Water
 - Juice 100% fruit or vegetable juice
 - Healthier
